CONFIDENTIAL

- 1 Reference Min (1) and attachments.
- 2 These draft orders represent a great improvement on the previous order.
- 3 The emphasis on disciplinary action has been diminished and more discretion is given to the SMO and the CO.
- 4 Medical Board is to be completed by two medical officers, including one psychiatrist if possible, where previously it was carried out by one; and authority for approval has been specifically invested in DGMS(Air).
- 5 Recommend, however, minor amendment to C34.00/02 para 3, sentence 1, as follows:

"When a psychiatrist indicates that the individual concerned has a psychopathic personality of homosexual type, a medical board shall be convened consisting of a minimum of two medical officers, at least one of whom shall be a psychiatrist, if possible."
- 6 This amendment removes the restriction on the psychiatrist of having to use specific words and in addition emphasizes the necessity for two MOs to sit on the board.
- 7 The orders are passed for your comments or concurrence.
