Min(2) attention 1/2 Williamson

Ref our telecon, a check was made on this case with TCHQ to determine what career action is being taken. In an admission of this nature our policy is to take immediate release action.

However, we have been informed by SOAPC, TCHQ that the MC and CO Catalina do not intend to take any further action; that [redacted] did not admit to the alleged act; and that the information in the police report was incorrect. Will you continue your investigation into this matter and determine the facts of this case.

If the information in the police report is correct, career action should be taken to release [redacted] from the RCAF. Further, the name of the sailor should be determined ^{info} and passed to naval security personnel.
