1. Reference is made to your SIB/G-4-41 (PM) dated 29 Dec 59.
2. The Commander Camp Borden was informed of this matter in the normal way by the Camp PM and immediately demanded a report on the situation from the CO RCAMS School, who is responsible for this particular barrack block. The Commander does not wish the Camp PM to take any further action but has issued very firm directions to all commanding officers on the subject of drinking in barracks.
3. The staff at this Headquarters was also informed and the Comd MO personally discussed the case in detail with CO 4 Fu Amb.
4. [redacted] and [redacted] have been released as a result of this affair and it is felt that this action will do much to discourage any further trouble of this nature.
