Homosexuality Investigation

1 An airman who is at present under treatment at this hospital for depression, has alleged that this depression is due to remorse over the homosexual relations which he has with [redacted] of your unit who, I understand, belongs to 433 Sqn.

2 The airman alleges that [redacted] was the aggressive party in this relationship, and that one first contact was when [redacted] approached this airman in the public lavatory attached to the bar at the Grand Centre Hotel. These acts were carried out in the Batchelor Officers' Quarters at this unit, first of all in Sep 59 and then again in Dec 59 when [redacted] was on temporary duty at this unit. The airman received a Christmas present of shaving lotion from [redacted] and he wrote to thank him at North Bay. He alleges that [redacted] returned here in late Mar, and that although he tried to avoid him, further acts were committed.

3 The airman states that [redacted] boasted to him that 2 or 3 officers at North Bay had similar relationships with him, and that he also had a contact among the officers at Comex.

4 This information is passed to you for investigation in accordance with Confidential AFAC 34.00/47. The airman is being referred to the psychiatrist for investigation, and the CO of this unit has been notified of the action taken in accordance with existing regulations.
