MATERIAL FOR SPEAKING NOTES

1. A brief statement of the consequences of continued inaction on the revocation of the CF policy on sexual orientation is enclosed for review by the CDS. DJAG/Legis and Department of Justice counsel have been consulted and concur with the statement. However, time did not permit additional coordination within NDHQ; specifically, DG Pol Coord has not been consulted.
2. Department of Justice counsel was tasked to provide input on the question of parliamentary privilege from subpoena, on the release of additional information at reopened discovery hearings, and on timings. Counsel has advised that PCO has stated that they have sufficient information on the first two subjects; consequently she is only working on input on timings. It is my understanding that all of the pieces will come together at PCO.
3. Please advise if additional action is required.
