Compensation for Gays kicked out of the military.

As former Minister of Justice, now Defense, and shortly to be the PRIME MINISTER of Canada, I draw your attention to the thousands of men and woman who were drummed out of the military simply because they were Homosexual.

This national disgrace has never been acknowleged or addressed by Canada. The inhumane treatment by the military machine in seeking out, exposing gays, and ruining their careers and some their lives, through suicide, can never be fully rectified.

Will you as future Prime Minister, order a federal inquiry into the dismissal of former military personnel because of their confessed homosexuality?

Will you as future Prime Minister ensure that these former military personnel such as Tim Reid and Tony Constantino are given redress and compensation for the way they have been treated by their Country?

Yours truly,

Alex Korman

Alex Korman.
