Personnel Convicted of Homosexual or Indecent
Acts or Suspected of Homosexual Tendencies

1 It is anticipated that three types of cases will arise in connection with the subject heading, therefore policy letter has been redrafted accordingly at first folio hereunder.

2 The referring of an individual to a psychiatrist has been reserved to AFHQ, because it is thought that all the available facts and reasons for suspicion should be ascertained and inquired into beforehand. This should prevent subsequent embarrassment, which might result from a hasty decision to have the suspect examined without reasonable grounds for the examination.
