MEMORANDUM TO THE PRIME MINISTER

Re: Security Policy

As there has been some renewed speculation recently in the press and on the radio concerning our security system, I have had the attached memorandum prepared for you. It outlines as briefly as possible present security policy, the methods by which it is put into effect, and the organization which carries it out. Some pertinent documents are also attached.

You may wish to note that an appeal system has already been worked out on paper, and that there is a good deal of documentation available on this difficult problem.

In view of his direct interest in this matter, I am sending a copy of the memorandum to the Minister of Justice.
