Re: "I" Directorate Annual Report
1959 - 60

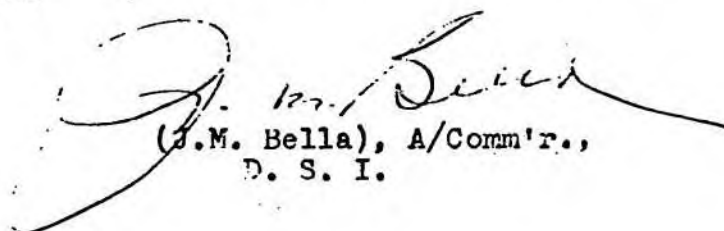

Submitted for your consideration are two copies of the report of the Directorate covering the period 1st April 1959 to 31st March 1960. The report has been somewhat delayed in preparation because, as you will see, we have tried this year to produce a report of a somewhat different character than in the past.

2. The reports of the separate branches have been treated primarily as reports to the Directorate and have been allowed to stand as submitted with the exception of the report from "D" Branch. This ran to more than 100 pages; therefore only a condensation of it has been included in the document now submitted to you.

3. In the past the annual report consisted mainly of the separate reports of the various branches. On this occasion, in addition to these reports, we have submitted a report from the Directorate as such emphasizing those matters that appear to be of concern to the Directorate as a whole. This latter document could of course be prepared only after we had received the reports from the various branches; hence the delay in the submission of the entire document.

4. Subject to your approval I propose to follow this practice in subsequent years since I think that the report from the Directorate as such will serve to focus attention on certain problems of continuing importance over the years. As you read the report you will note that several of the questions raised have now been resolved.
