Re: Security Screening of Government
Employees - Character Weaknesses.

In compliance with the D.S.I.'s request contained in memo on the above, dated 27-11-62, the following questionnaire is to be utilized by Investigators in A-3 Section, AT THE CONCLUSION OF EACH INTERVIEW. It is not necessary that the exact wording as used here, be followed when presenting these questions to the interviewee. It is quite acceptable to change the wording as long as the original meaning of the question is not lost in the process.

1. What is your personal impression of your family?
 - (a) Do you have any criticism of your parents as to the method by which you were raised? If so what was it?
 - (b) Do you have any criticism of the relation between yourself and your brothers and sisters? If so what are they?
 - (c) Do you in any way, lay blame unto your parents or members of your family for the personal character weaknesses, such as homosexuality, alcoholism, etc., that you may possess? If so why?
2. What is your personal attitude towards Society in General.

The answers only to the above questions are to be embodied in the last paragraph of the "Information Section" of the individual report. The only reference required insofar as these questions are concerned, is the number and sub-number of each, which is to be obtained from the master sheet of questions retained by each investigator.

In the first paragraph of the "Investigator's Comments" portion of each report, the investigator is to include his observations of the person being interviewed, which is to cover the following points:

- (a) The individual's reaction to the interview.
- (b) Was there any indications of tension, such as nervousness, sweating, mental confusion, etc.
- (c) The individual's attitude towards being interviewed - was he belligerent, indifferent, etc.
- (d) Did the interviewee appear proud or ashamed of his homosexual actions.
- (e) Make note of the questions which he has refused to answer and the reasons for each, if any.
