Dear Mr. Wall:

This is to confirm our discussion of 18 January 1963 concerning Dr. WAKE's request for a number of persons for clinical testing, detailed in paragraph 74 on page 17 of his report appended to your letter of 19 December 1962.

2. While we are most anxious to assist Dr. WAKE in his research programme we feel that we cannot meet his request in its entirety. We are in the process of contacting known male homosexuals in this area and soliciting their co-operation in the proposed tests, however we are not yet in a position to determine how many will volunteer for the project.

3. We have no contacts within the female homosexual community in this area and no safe ground upon which an approach might be made to these persons. In this respect, we would suggest that other government departments, who will benefit directly from the results of the tests, might be requested, through your office, to solicit the co-operation of female homosexuals known to them.

4. We have some doubts also as to the propriety of our soliciting normal females to participate in the tests. We believe that this should be undertaken by some government department or departments which have a large pool of female employees under their control.

5. Similarly, we believe that the required number of normal males should be drawn from the government service at large and not restricted to any one department. We are prepared to ask for volunteers from the Force, but we would also suggest that other vulnerable government departments be requested to provide similar persons for testing.

... 2

Mr. D.F. Wall,
Secretary of the Security Sub-Panel,
Privy Council Office,
Room 119, East Block,
Ottawa, Ontario.
