National Defence Medical Centre
Ottawa 8, Ontario
6 May, 1969

Major General D.C.M. Nelson
Surgeon General
Canadian Forces Medical Service
Ottawa 4, Ontario

Major General Nelson:

Following the meeting with you, it appeared to Lieutenant Commander Lawless and myself that there might be some profit in presenting a report from each of us concerning Dr. D.B. Bindra's evaluation of the psychophysiological program at NDMC. Such an approach allows us to emphasize the points of importance to us as individuals - thereby saving argument (perhaps) and certainly time. Accordingly, two reports are enclosed for your attention.
